| <b>Dust Collector</b>     | DCC-5                 |

\*Based on Chevy 350 Engine\*

## ASPECTS

**Oven**

The Eliminator Oven uses a controlled burn cycle for even heating with no hot spots.

**Blaster**

The Blaster uses a full-length, single-impeller motor to ensure the most consistent cleaning to bare metal.

**Shaker**

The Shaker / Tumbler removes shot and cools the parts with a powerful blower and high CFM movement.
