

# DB-1 DISASSEMBLY BENCH

## FEATURES

- Faster valve spring replacement
- Adjustable head support for canted valves
- UHMW guides to protect cylinder head
- Adapter lock to work on keepers with spring depressed
- Dowel pins to keep head in place
- Quick-tap release for hard-to-release keepers
- Nonskid pad

## STANDARD RETAINERS:

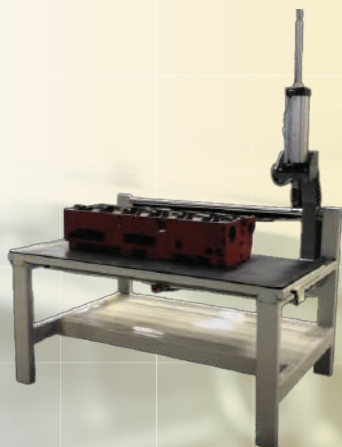

- 1.000"
- 1.250"

## OPTIONAL RETAINERS:

- 0.8125"
- 1.500"

**No more fighting old style "c" clamp spring compressors  
while wrestling with keepers and retainers!**

## OTHER DISASSEMBLY BENCHES:

**DBX-L**

**DBX**

**CHX-40**

**The DB-1 accommodates  
automotive length cylinder head.**

**The adjustable table angle and  
arm angle allows the user to do  
any valve angle with ease.**
